AgriSmart

Volunteer Position

Project Coordinator

Duty Station

Remote (Open to applicants based in **Kenya and internationally**)

Duration

3 – 6 Months (Renewable depending on project needs and performance)

Time Commitment

Approximately **8 – 12 hours per week**

Type of Engagement

Volunteer (Unpaid)

About AgriSmart

AgriSmart is an emerging **agritech initiative focused on empowering smallholder farmers with climate intelligence, market insights, and data-driven agricultural decision tools**. The platform aims to help farmers make informed decisions on **planting, harvesting, and selling produce** by integrating localized weather forecasts, market price signals, and digital advisory services.

AgriSmart is currently preparing for its **initial pilot deployment with farmer cooperatives**, and we are building a team of passionate volunteers who are interested in contributing to **agricultural innovation, technology, and social impact**.

We welcome applications from **Kenyan professionals, students, and international applicants** who would like to support the development of solutions that improve farmer livelihoods.

Role Overview

The **Project Coordinator** will support the planning, coordination, and implementation of AgriSmart activities during the pilot preparation and early deployment phases.

The role involves working with cross-functional teams including **technical development, partnerships, operations, and monitoring teams** to ensure project activities are delivered efficiently and on schedule.

The Project Coordinator will assist in **tracking project milestones, coordinating team tasks, maintaining project documentation, and supporting communication between stakeholders**.

This role is ideal for individuals interested in **project management, agritech innovation, development work, and startup environments**.

Key Responsibilities

Project Planning and Coordination

- Assist in developing and maintaining project plans and timelines.
- Support the preparation and tracking of **Gantt Charts** to monitor project milestones and deliverables.
- Coordinate tasks across teams to ensure project activities progress smoothly.
- Monitor progress against key milestones and report delays or challenges.

Team Communication and Collaboration

- Facilitate effective communication between team members and project stakeholders.
- Schedule and coordinate team meetings.
- Prepare meeting agendas and maintain records of discussions and action items.

Project Monitoring

- Track progress of assigned tasks and project deliverables.
- Identify potential risks or delays and support the development of mitigation strategies.
- Assist in maintaining project tracking dashboards or task management systems.

Documentation and Reporting

- Maintain organized records of project plans, updates, and documentation.
- Support preparation of progress reports and internal updates.
- Assist in documenting project learnings during the pilot phase.

Stakeholder Coordination

- Support communication and coordination with partners, collaborators, and volunteers.
- Assist in preparing updates for partners and stakeholders when required.

Minimum Requirements

Education

Applicants should be pursuing or have completed a **Diploma or Bachelor's Degree** in one of the following or related fields:

- Project Management
- Agriculture or Agricultural Economics
- Business Administration
- Development Studies
- Information Technology
- Data Science
- Social Sciences

Students in their **final year of study or recent graduates are encouraged to apply**.

How to Apply

Interested applicants should submit the following through the **AgriSmart Careers page**:

- Updated **Resume / CV**
- **Cover Letter**
- A **Motivation Statement (maximum 500 words)** explaining why you would like to volunteer with AgriSmart.

Shortlisted candidates may be invited for a **brief virtual interview**.

Equal Opportunity Statement

AgriSmart is committed to providing **equal opportunities to applicants regardless of nationality, gender, or background**. Applications are welcome from **Kenya, across Africa, and internationally** from individuals passionate about agriculture, technology, and social impact
